Emissione DT 14/01/02

RESISTORE DI POTENZA  
AVVOLTO SU TELAIO METALLICO

POWER RESISTOR WOUND ON  
METALLIC FRAME

Mod. RDP4000

Mod. RDP4000

1. Potenza nomin. a 25°C (P <sub>R</sub> )	4000 W	Rated power @ 25°C(P <sub>R</sub> )
2. Temperatura superficiale @ P <sub>R</sub>	375°C	Surface temperature @ P <sub>R</sub>
3. Gamma dei valori resistivi	0,4÷100 Ω	Resistance range
4. Tolleranza	±5%	Resistance tolerance
5. Temperatura superficiale ammessa	450°C	Surface temperature limit
6. Tensione Limite (impulsiva)	4.000 V	Limiting element voltage (impulse)
7. Sovraccarico	40 kW x 5 sec	Overload
8. Coefficiente di temperatura	150 ppm/°C	Temperature coefficient

9. Incremento della temperatura superficiale  
in funzione del carico

Surface temperature rise related to  
power dissipation.

Insulated Supports
